

Annual Continuing Education . . .

What's in it for YOU?

by Lynita Docken, S&B Plumbing Program Manager,
608-785-9349, Ldocken@commerce.state.wi.us

This Winter's Safety and Buildings Division continuing education on plumbing includes something for almost everyone! All classes offered are approved by S&B the for master, journeyman, restricted-appliance, and restricted-service plumbers and for UDC-Plumbing and POWTS inspectors.

A chart on page 7 of this *WPCR* shows the subjects that are included in each portion of the continuing education courses. There will be two, three-hour (morning and afternoon) courses presented in all locations.

Each class will cover a set of proposed code

continued on page 7

The S&B con ed classes will be good, however. . .

An article in the October *WPCR* introducing the upcoming annual S&B continuing education classes praised a presentation by S&B Plumbing Consultant Don Oremus at an inspectors' gathering. Oremus' terrific tutelage about drain fittings was in the article advertized to be part of the December - March con ed classes. Wrong. The upcoming classes will cover possible code revisions and will not include Oremus' celebrated fitting informatory.

Special Continuing Education . . .

Plan Review Scheduling

For plan review scheduling for Plumbing and Buildings, call the S&B office numbers listed above, or contact the email address shown. Fax scheduling is possible, 877-840-9172. Information about the project will be needed to schedule the plan review. Any of the offices can schedule the first appropriate plan review available statewide.

Plan review for Private Onsite Wastewater Treatment Systems is provided on a first-come, first-served basis. Contact one of the offices for information.

For scheduling info, also see <http://www.commerce.state.wi.us/SB/SB-DailyDoc.html>.

Questions about your continuing education credits?

Check the mailing address back page for a printed line giving your status for plumbing-related S&B credentials. Or, call the Credentialing Unit, 608-261-8500. Or, check the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-HomePage.html>, choose "Credentials."

The WPCR is a monthly publication delivered to about 9,900 people as part of their certification, license, or registration with the Wisconsin Department of Commerce, Safety and Buildings Division. Subscriptions are also available. SBD 8340P

The Department of Commerce does not discriminate on the basis of disability in the provision of services or in employment. If you need this printed material interpreted or in a different form, or if you need assistance in using this service, please contact us, 608-266-3151, TTY 608-264-8777.

You just got the contract to install a plumbing system - S&B helps you through the plumbing plan review

by Jim Miller, S&B Bureau of Integrated Services, Plumbing Section Chief, 608-266-8072, Jhmillier@commerce.state.wi.us

Congratulations, you were just awarded the contract to put in the general plumbing system for a public building. Now comes a bunch of questions:

1. Do I need to have the plans approved by the state?
2. Is it a complicated procedure to get plans approved?
3. If I do need to submit, how quickly will they be reviewed?
4. Can I choose any office to get them reviewed?
5. Do I need to make an appointment? If so, how do I do that?
6. If I have any other questions, who can I call to get help?

1. The rule of thumb is (there are a few exceptions), if the plumbing in the public building consists of 16 or more fixtures, plan submittal and approval are required before construction begins. For plan submittal purposes, fixtures include hose bibbs, roof drains, exterior storm drain inlets, water heaters, as well as toilets, lavatories, showers, etc.
2. No.
3. You can call any of the offices listed on page two of this *WPCR* to ask about plan review availability. Another way to check on how long it takes to get an appointment for the review is to go to the S&B WebSite and look at what is called the "Daily Doc." This page is updated daily to show when the next available appointment is for review in each of S&B six plan review offices. Go to <http://www.commerce.state.wi.us/SB/SB-HomePage.html> and select "Plan Review Appointments" in the left column.
4. You can choose any Safety and Building office for your plan review submittal. If you want the plans

(This is NOT the process for setting up review of POWTS plans. POWTS plans are reviewed on a first-come, first-served basis.)

back as soon as possible, you can make an appointment in the office that has the earliest opening convenient to you and then ship the plans to that office.

5. It is not required that you have an appointment to get the general plumbing plan reviewed. If you wish, you may mail the plans in and they will be given the next available opening. **However, S&B recommends that you make an appointment. It speeds up the process for you and for the division.** You can make the appointment before the plans are completely drawn. Once you know the date the plans will be completed, contact S&B to make an appointment. It's important to remember to have your plans to the review office two working days prior to when they are scheduled for review. Another way to schedule an appointment is by completing the plan review application form and faxing it to 877-840-9172. This is a 24-hour; toll free number dedicated to receiving fax plan review requests. The appointment will be made for you on the soonest opening, or in the office you designate. You can get the review application form at the same HomePage web address shown above. Select "Forms," on the left, choose the plumbing app, print it off, complete the first two pages, and fax it in.
6. If you're not exactly sure if you need a submittal, what is needed, what the fee is, etc, call any general plumbing plan reviewer listed on page two. Our goal is to get your plan reviewed and back to you as soon as possible. One of the best ways to ensure this is to make sure all information is with the plan when it lands on the reviewer's desk. I repeat, call any general plumbing plan reviewer with any questions you have. It's our intent to help you through the process.

Exams are being updated to address multipurpose piping systems

Follow the 2000 adoption of Comm 5.91, related to multipurpose piping systems, the Safety and Buildings Division plumbing exams are being updated to include questions about to multipurpose piping systems.

People initially licensed after January 1, 2002 will no longer be required to attend a Safety and Buildings Division-approved course prior to being the responsible master plumber or master plumber-restricted appliance for the installation of a multipurpose piping system, because of this topic being tested on the exams. The class attendance has been a transitional way to assure knowledge of the systems for the responsible installers.

During the exams, the National Fire Protection Association (NFPA) standard NFPA 13D, 1999 edition, will be allowed in the exam rooms as reference material.

It is recommended that if you plan to take the journeyman, journeyman plumber-restricted appliance, master plumber-restricted appliance, or master plumber exam after January 1, 2002, you consider purchasing NFPA 13D for reference material during the exam.

NFPA 13D can be purchased from NFPA at <http://www.nfpa.org> or by calling NFPA at 800-344-3555.

S&B WebSite:

www.commerce.state.wi.us/sb

For those of you who receive the *WPCR* free because you have a particular license administered by the Safety and Buildings Division, address changes should be provided to the S&B Credential Unit, madisoncred@commerce.state.wi.us, 608-261-8500.

People with paid subscriptions, may request service and address changes from Material Orders, PO Box 2509, Madison, WI 53701. Fax 608-261-6699. Telephone 608-267-4405. Email phobbs@commerce.state.wi.us

Subscriptions are \$20, payable in advance to the Safety and Buildings Division for 12 monthly issues.

McCullough should not have been in violation reports

Clint McCullough of McCullough Plumbing, Madison, should not have been listed in the February 2001 *WPCR* as having received a License Violation Report.

The person who sent the violation report to the Safety and Buildings Division did not have authority in the jurisdiction where he reported a person was doing work for McCullough without the proper credential. Additionally, there does not appear to be evidence that McCullough received a copy of the report at the time of issuance, which is supposed to

happen in order to give the alleged violator an opportunity to challenge the report.

The License Violation Report is a form issued by inspectors in their jurisdictions to document violations such as working without a license or hiring someone to work without the proper license. A copy of the report is sent to the Safety and Buildings Division to be part of a database of information about alleged violators. The alleged violator is supposed to be given a copy of the form, which has written instructions on how to dispute the report.

S&B WebSite: www.commerce.state.wi.us/sb

Employment Opportunity

Boiler Safety Inspector 3 - Waukesha and Madison Areas - Re-announcement

Two positions in the Department of Commerce, Safety and Buildings Division, Bureau of Field Operations. **Salary:** Start at \$34,207 per year plus excellent benefits. A 12-month probationary period is required. **Job Duties:** Perform inspections of boilers, pressure vessels, power piping, refrigeration systems, petroleum storage systems (LPG, CNG, LNG) to assure compliance with the Wisconsin Boiler and Pressure Vessel Code; determine safe working pressure of boilers and pressure vessels; enforce code rules and orders such as changes and repairs that will place vessels in safe working condition; provide inspection service at plant locations during the construction of boilers and pressure vessels. **Well-Qualified Applicants:** Well-qualified applicants will have experience installing, constructing, or maintaining power boiler systems, operating electrical generation, central heating, or power station boilers in an industrial or manufacturing complex; performing welded repairs of boilers. **Special Requirement:** Candidates must have passed the National Board of Boiler and Pressure Vessel Inspectors examination. Commission and additional endorsements A and B are also highly desired. Extensive travel is involved and a valid Wisconsin driver's license is required. Vehicle is provided. This position requires the ability to bend, stoop, twist, and climb to perform inspections. **Application:** Apply with the Application for State Employment form (DER-MRS-38), current resume, and a description of your qualifications and experience in the following areas as they relate to boilers and related pressure vessels and equipment: 1) installation

or construction; 2) boiler operation; 3) welding repair or replacement of pipe components; 4) maintenance and inspection; 5) Credentials. Indicate the length of time you performed these functions. Send application materials to: Dale Bartz; Bureau of Human Resources; 201 West Washington Avenue, 6th Floor; PO Box 7970; Madison, WI 53707-7970. Fax 608-266-0182, email: dbartz@commerce.state.wi.us, 608-266-0366. Application materials will be accepted until the needs of the department are met.

WPPR listing for PSA Biodiffuser 16-inch High Capacity Leaching Chamber

There is a miscalculation in the July 2001 *Wisconsin Plumbing Products Register* model description of PSA, Inc.'s Biodiffuser Plastic Leaching Chamber, 16-inch high capacity model.

The listing (page 25) should indicate that the bottom area is 17.7 square feet, not 15.33 sq. ft.

The sizing credit for the chamber was wrongly (wrongly, for now) based on the manufacturer's calculated bottom area of the chamber and not the actual open bottom area of the chamber.

At the present time, the Safety and Buildings Division, with the help of the POWTS Technical Advisory Committee, is considering a new sizing method for chambers that will be based on the actual open bottom area and side wall height of the chamber. In the not-too-distant future, the new sizing method may be adopted and plumbing product model descriptions may be changed to reflect the new sizing.

S&B WebSite:
www.commerce.state.wi.us/sb

You noted that the code changed on floor drain discharge?

?The wastewater from a floor drain located in a one family residential garage can discharge to the?:

- A. Municipal sanitary system
- B. Ground surface
- C. Municipal storm system
- D. POWTS system

It can discharge to any of these, **EXCEPT** the Municipal storm system (C) due to a code change in January of 2001. See Comm 82.36(3)(b)5.

If you have questions, contact any plumbing plan reviewer listed on page two of this *WPCR*.

Madison Assoc. of Plumbing Contractors Comm 83 POWTS Training Seminar

8 a.m. to 3 p.m., Nov. 27, 2001,
Sheraton Madison, 706 John
Nolen Dr., Madison

Topics: "Code Update" -
"Fast Units" - Maintenance
- "Bio-Tubes" - "Sand
Filters" - "Drip Systems"

Organized by Wieser Concrete - \$15 fee for
MAPC members, \$25 fee for non-members
- Pre-register by Nov. 23 by calling

Winter classes registration

If you have questions about your continuing education status, contact the Safety and Buildings Division Credentialing Unit, 608-261-8500, madisoncred@commerce.state.wi.us.

The winter 2001-2 continuing education plumbing classes offered by the Safety and Buildings Division were **listed in the October WPCR**, along with the class registration form. The information is available in the *WPCR* copies on the Internet, <http://www.commerce.state.wi.us/SB/SB-DivPublications.html>. Also, the registration forms are available on the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-HomePage.html>.

**Wisconsin Onsite Wastewater Recycling Association, Inc., and
the Wisconsin Liquid Waste Carriers Association**

JOINT CONFERENCE AND TRADE SHOW

January 25-26, 2002
Marriott Madison West, Middleton, WI
Two Full-day Sessions

Registration includes sessions for both days, lunch on Friday and Saturday, as well as the Friday evening reception and Saturday dinner. We are expecting 400 to attend and 40 exhibitors.

Call the Marriott Hotel at 620-831-2000 or 800-228-9290. Room block "MWJR" for conference rate of \$98 per night before December 25, 2001

Continuing Education credit hours for
Friday and Saturday being applied for:
Journeyman Plumber
Journeyman Plumber-Restricted Service
Master Plumber
Master Plumber-Restricted Service
POWTS Inspector
POWTS Maintainer
DNR credits also being given

For more information on
the conference call
WOWRA at:

800-377-6672 or
Fax: 262-966-0471

Preregistration deadline
January 4, 2002

Two days in the Dells!

Continuing Education!

Learn how to design and install
multipurpose piping systems!
Brush up on the code! Prepare for an exam!

January 29 and 30, 2002 at the Chula
Vista Resort in Wisconsin Dells

Hours	Date-Time	Class Title	Con ed credit for which categories
<input type="checkbox"/> 3	29th, a.m.	"Comm 82.32-36, 41, etc."	UDC-PI, MP, JP
<input type="checkbox"/> 3	29th, p.m.	"Water supply sizing"	UDC-PI, MP, JP, MP-RS, JP-RS, MP-RA, JP-RA
<input type="checkbox"/> 3	30th, a.m.	"POWTS"	POWTS I, MP, JP, MP-RS, JP-RS
<input type="checkbox"/> 3	30th, p.m.	"Drain and Vent"	UDC-PI, MP, JP

<input type="checkbox"/> 6*	30th, a.m./p.m.	"Multipurpose Piping In Depth"	UDC-PI, MP, JP, MP-RA, JP-RA

* If a master plumber licensed before Jan. 1, 2001 takes both days of the "Multipurpose Piping Systems" classes, they get an accreditation as a Multipurpose Piping Systems Installer. Master plumbers licensed after Jan. 1, 2001 will receive the accreditation as part of their exam (see page 4).

Check the boxes of the classes you wish to attend. Choose up to 12 hours of class. Don't choose conflicting classes. Make sure classes are approved for your credentials. (Credits are not valid for April 1, 2002 renewals. The April 1, 2002 con ed cycle ends Dec. 31, 2001.)

Cost is \$290 for the package, which includes class materials, break refreshments, resort single room the night of Jan. 29, lunch and dinner on Jan. 29, breakfast and lunch on Jan. 30. Offer is for package only. Single classes at a lower fee are not being offered. **Attendees' families are welcome to enjoy the facility, including the indoor water park.** Family member meals are not included in package. Check out Chula Vista on the Internet, chulavistaresort.com. S&B staff and managers will be available at dinner on Jan. 29 for Q&A and conversation.

Register by Jan. 3, 2002. One form per person. Confirmations will be sent to registrants. You will be contacted by telephone if the session you select is full. **Keep a copy of this form as a reminder of what you registered for.** If you have registration questions, call Violet Lehmann, 608-266-3594, or email vlehmann@commerce.state.wi.us.
